Eastern Irrigation Supply, Inc. - Newberry, FL

Eastern Irrigation Supply, Inc., is a premier irrigation supply center with large and diverse product offering for agriculture, commercial, industrial and residential applications. If your needs include accessories for pump, pipeline, pivot, sideroll, solid set, turf, micro irrigation or traveler replacement parts, there is a good chance that we inventory or have at our disposal the products that will meet your needs.

Presently, EIS represents over 100 of the top manufacturers and suppliers in the industry, whose products we distribute throughout a large portion of the United States, from Puerto Rico to Maine.

Our goal at EIS is to give you the best service possible by having inventory on hand, prompt delivery once an order is received and competitive prices to enhance your position in the market. We also pledge to give technical support if or when you need it.

We genuinely appreciate and thank you for your business.

Where We're Located

OUR PLEDGE OF SUPPORT & COMMITMENT

Service:

We will provide you with the best service available in the industry. Specializing in same day response to your needs. We will always provide the best and most complete service package available from any supplier.

Quality:

We will always strive to provide you with the highest quality name brand products in the industry, backed with the manufacturer's guarantee and warranty.

Pricing:

We will continually work to provide you with the lowest and most competitive prices in the industry. In many cases, we will be able to extend "factory direct pricing," the same that you would be able to purchase at direct from the manufacturer. In every case, we will provide fair and competitive prices for all of your irrigation needs.

Staffing:

We will provide you with our staff of professionals that you are encouraged to use as an extension of your company. Individually, each of our distribution centers can provide you with our many years of extensive irrigation design and product knowledge. Combine that with the personal attention of our product manufacturers and suppliers and you will have a support staff second to none in the industry, all geared to help you with your customer product needs and to help you grow your business.

Selection:

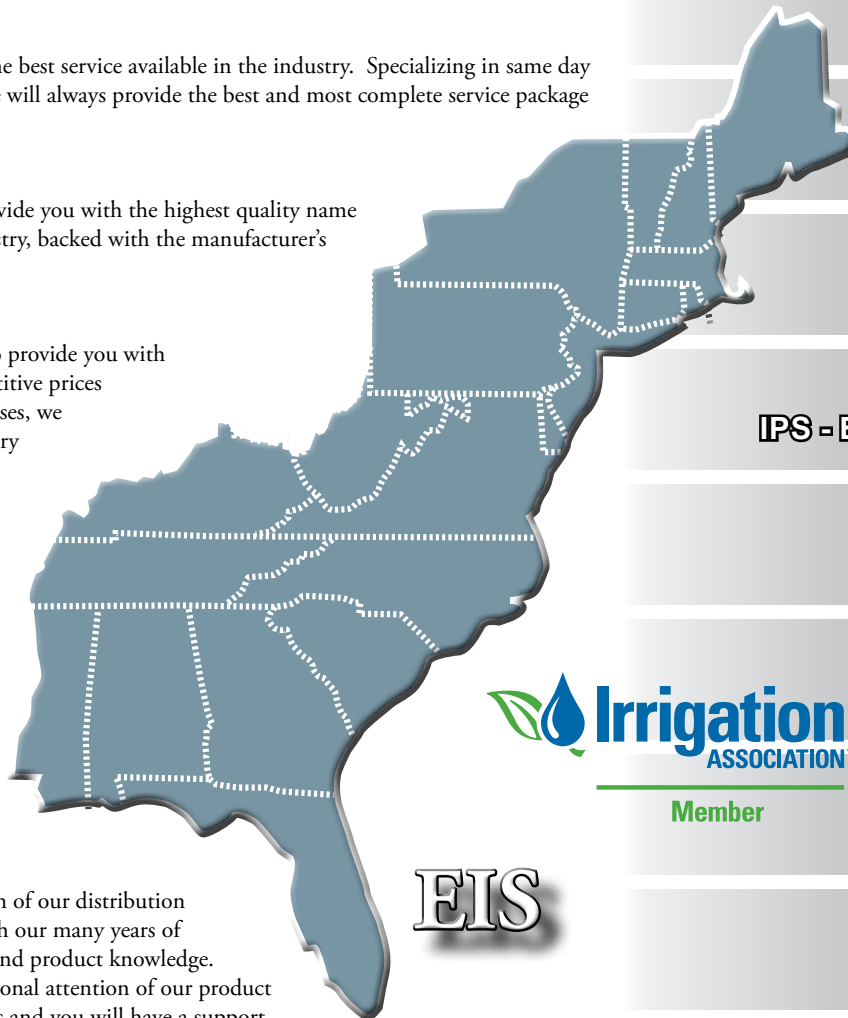

We will provide you with a one stop shop concept that offers you the most complete product selection from a single source supplier. Save time and money by not making multiple stops or calls for supplies. This increases your productivity and puts your company in a position to quickly and efficiently satisfy your customer's needs, all adding to the profitability of your company.

Support:

We will always maintain the perspective of putting your business needs and concerns at the top level of priority in our business. As a small business operation, we understand the needs of other small businesses and the importance of working together to strengthen and support small business interests, their employees, and the local communities in which they operate.

Commitment:

We are committed to helping you build and grow your business. As you purchase products from us, we will return all profits back into the business, keeping them working for you. Whether it be through maintaining adequate stock levels which make it possible to address your customer's needs, selecting new products for you to offer your customers and grow from, or negotiating better prices from manufacturers to lower your cost, we are committed to you.

The Super Flush Kit assembly is as simple as 1-2-3 for your pivot flush requirements.

- (1) select the hose length that best suits your needs.
- (2) select the type of hose that you want to use.
- (3) select the proper ball valve for your application.

The kit includes a galvanized 90° street ell, a galvanized king nipple, a plastic insert male adapter, 2 clamps, hose and ball valve.

Note: Other lengths are available upon request. Please specify length when placing order.

DROP FILTERS

3/4" AQUA-DROP FILTER

Threads into bottom of pivot drop for easy access.

Screen sized to reduce and / or prevent nozzles from clogging with debris.

Part No.	Description	Price
ADF075FF	3/4" Aqua-Drop Filter FIPT x FIPT	\$5.18
ADF075FM	3/4" Aqua-Drop Filter FIPT x MIPT	\$5.18
ADF075MF	3/4" Aqua-Drop Filter MIPT x FIPT	\$5.18
ADF075MM	3/4" Aqua-Drop Filter MIPT x MIPT	\$5.18

Screen Features:

- 20 mesh screen - 1/64th inch smaller than smallest nozzle available
- 5 inch screen increases surface area to reduce cleaning frequency
- 304 stainless steel screen for long life & rugged use

Positive seal - gasket is molded into screen & sealed between fittings

3/4" EXCLUDER FILTER

Plug into the inlet side of the gooseneck prior to screwing gooseneck into pivot mainline.

Developed to prevent debris from plugging nozzles.

Part No.	Size	Description	Price
EXC34	3/4"	Insert Filter for Galvanized Gooseneck	\$2.56
EXC58	5/8"	Insert Filter for PVC Gooseneck	\$2.56

DROPS - READY TO INSTALL

Our Polydrop® was the first product of its kind used. It is still the most widely used drop of its type in the industry. Our Polydrop® is different from any other polyethylene drop used today. It is the #1 drop preferred by dealers, installers, & growers. This drop has been in the field for over 20 years. Our drops have been problem free. Due to its unmatched & unsurpassed problem free track record, make sure that when you order a polyethylene drop it is the true and original Polydrop®. Don't accept any look-alikes.

3/4" X 250' FLEXIBLE DROP HOSE

3/4" x 250' FLEXIBLE DROP HOSE

We are pleased to offer four high quality hoses for your drop hose requirements, Premium, Premium Plus, Senninger & Goodyear Sureline. For more than a decade, we have distributed over 12,000 miles of our Premium and Premium Plus grade drop hose. Installed extensively on over an estimated 25,000 plus center pivot systems, it is the most popular and widely used product of its type in today's marketplace. However, in our quest to improve upon this highly successful product, we asked the question, "can we make the best hose in the market, constructed specifically for drop application, even better at a realistic, affordable price?" We concluded the answer to be "yes," so today you have a choice of four great products.

Premium: A co-extruded liner which has a solid thin inner wall & a thicker foam wall, providing for lighter weight & a more flexible product. Highly durable PVC cover which provides excellent weatherability & maximum resistance to ultra-violet degradation. A knitted synthetic cord reinforcement between the PVC jacket & the inner core. Medium burst strength.
Quality: GOOD

SENNINGER SUPER SPRAY®

The Super Spray is Senninger's most versatile spray nozzle. A wide selection of interchangeable snap-in deflector pads are available to address irrigation and chemigation requirements over a variety of crop, climatic and soil conditions. Pads available in 1) Smooth, 2) 36 medium groove, 3) 24, 36 & 48 deep groove. All types of pads available in either concave, flat or convex. Forty-five sizes of color coded nozzles are available to use at a suggested pressure range of 6-30 PSI.

Part No.	Description	Price
SSBRASM-UP3	Super Spray Bracket (Body)	\$3.50
SSPFL-XXXX	Flat Plates (Black)	\$1.80
SSPCC-XXXX	Concave Plates (Blue)	\$1.80
SSPCV-XXXX	Convex Plates (Green)	\$1.80
UP3 NOZZLES	UP3 Nozzle (#4 - 26)	\$1.65

SENNINGER LDN® LOW DRIFT NOZZLE

Based upon nozzle size and flow, the LDN is designed to shear off water from the nozzle stream and direct it onto multiple levels of deflector pads, thereby controlling stream placement off the pad. Also can be used as a single pad spray for maximum throw & droplet size off the pad. Circular design for minimum drag in crop. Pads available in 1) 24 mini and 2) 24 & 33 groove. All types of pads available in either concave, flat and/or convex. Operates best at 6-10 PSI. Multiple irrigation & chemigation pads to select from.

Part No.	Description	Price
LDN-SINGLE-UP3	Complete Spray w/Single Pad - Less Weight	\$5.44
LDN-DOUBLE-UP3	Complete Spray w/Double Pad - Less Weight	\$6.82

NELSON 3000 SERIES PIVOT PRODUCTS

As with all NELSON 3000 Series Pivot Products, each sprinkler type incorporates a user-friendly, modular design with quick change plastic color-coded nozzles. Each body type has a square thread which can be used with a standard 3/4" MPT by square thread base or matched with a square thread regulator which eliminates the need and cost of the base.

NELSON R3000 ROTATOR® (15-50 PSI)

R3000 Rotators offer a slow rotating plate which produces the widest pattern of any below mainline sprinkler. This results in a lower application rate, reduced runoff and longer soak times. R3000 Rotators are available with a wide range of plates with a variety of trajectories & groovings. Up top plates include the U4-8 degree blue and the new U6 multi-trajectory white. Drop plates include the D4-8 degree green, D6-12 degree red, a new D8 multi-trajectory orange & a new D10 multi-trajectory brown plate. Also available with TRASHBUSTER body (TR3000) to reduce the accumulation of debris on the body in dirty water applications. TR3000 rotators available with 3000FCN flow control nozzles for reduced chance of plugging.

Part No.	Description	Price
R3000	Complete Assembly w/3TN & 3/4" MNPT	\$29.57
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
9412	R/S3000 Series Body	\$2.24
Specify Color	R3000 Plates	\$5.09
9539	R3000 Cap/Motor	\$19.03

NELSON S3000 SPINNER (10-20 PSI)

S3000 Spinners utilize the higher speed spinning action of the rotor plate to produce a gentle rain-like droplet for sensitive soils and crops. A low pressure alternative to fixed sprayheads, the S3000 provides higher uniformity with better overlap and lower application rates. Available plates include the D6-12 degree red, D6-20 degree purple and new D8 multi-trajectory yellow.

Part No.	Description	Price
S3000	Complete Assembly w/3TN & 3/4" MNPT	\$24.65
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
9412	R/S3000 Series Body	\$2.24
Specify Color	S3000 Plate	\$5.09
9540	S3000 Cap/Motor	\$14.11

NELSON D3000 SPRAYHEAD (6-40 PSI)

The flip over dual spray cap on the D3000 allows for easy conversion of the spray pattern. Choose from spray plate options to germinate, irrigate & chemigate. Plate selection includes 1) smooth flat, 2) 30 stream fine groove in either concave, flat or convex, 3) 36 stream medium deep groove in either concave or flat, 4) 24 stream coarse deep groove flat, 5) 21 stream coarse deep groove & 33 stream medium deep groove multi-trajectory & 6) corn & cotton chemigation. For Low Energy Precision Application (LEPA), utilize HDA hose drag adapters to attach 3/4" drag hose or drag socks. You may also snap on a bubbler clip to create a LEPA bubbler. Circular design allows for easy passage through the thickest foliage.

Part No.	Description	Price
D3000	Complete Assembly w/3TN & 3/4" MNPT	\$6.30
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
9428	A/D3000 Body	\$1.39
9429	D3000 Cap	\$0.89
Specify Color	D3000 Plate	\$0.81
9427	HD Hose Drag Adapter	\$2.50
10577	Bubbler Ring	\$1.46

NELSON PART CIRCLE 3000 SERIES PIVOT PRODUCTS

The PART CIRCLE 3000 SERIES was developed for use on either side of pivot towers to reduce the amount of water applied to the wheel track area. The part circle directional control is produced by a stream deflector between the nozzle & the body. The stream deflector, plates & motors are unique to the PC R3000 Part Circle & PC S3000 Part Circle & may not be used with standard R3000 Rotators & S3000 Spinners. The PC D3000 Part Circle sprayhead is used mainly with low pressure spray systems. PART CIRCLE 3000 SERIES Sprinklers are also being used as endguns with great success. With up to 35 feet of throw & no stalling due to low pressure they are a problem free answer to adding productive acres to your field.

NELSON PC-R3000 PART CIRCLE ROTATOR® (15-30 PSI)

The PC R3000 Part Circle Rotator comes with two different plates. Use the white plate for nozzle sizes #14 - #35 & the black plate for nozzle sizes #36 - #50. Coarse grooved plates create healthy droplets that fight wind & increase distance of throw. The part circle mechanism comes as an assembly which includes the stream deflector, body, plate, cap & motor. 190° Arc with up to 35 feet of throw.

Part No.	Description	Price
PC-R3000	Complete Assembly w/3TN & 3/4" MNPT	\$41.67
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
10843-###	PC R3000 Less Nozzle & Less Adapter	\$38.48

NELSON PC-S3000 PART CIRCLE SPINNER (10-20 PSI)

The PC S3000 Part Circle Spinner uses one plate to cover the entire nozzle range of #14 - #40. Being in the Spinner family it produces a gentle, rain-like droplet. The part circle mechanism comes as an assembly which includes the stream deflector, body, plate, cap & motor. 190° Arc with up to 26 feet of throw.

Part No.	Description	Price
PC-S3000	Complete Assembly w/3TN & 3/4" MNPT	\$33.21
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
9926-001	PC S3000 Less Nozzle & Less Adapter	\$30.02

NELSON PC-D3000 PART CIRCLE SPRAYHEAD (10-20 PSI)

The PC D3000 Part Circle Sprayhead uses one plate to cover the entire nozzle range of #9 - #50. This 170° medium groove concave plate produces small streamlets that travel up to 19'. The body and plate come as an assembly.

Part No.	Description	Price
PC-D3000	Complete Assembly w/3TN & 3/4" MNPT	\$15.59
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
9894-001	PC D3000 Less Nozzle & Less Adapter	\$12.41

NELSON 3000 SERIES PIVOT PRODUCTS

NELSON A3000 ACCELERATOR (10-15 PSI)

Designed as a hybrid of Rotator® & Spinner technology, the Accelerator increases rotation speed as nozzle size increases. Smaller nozzles rotate slowly giving maximum distance of throw & reduced misting. As the nozzle size increases the plate speeds up keeping a uniform size droplet over a large range of nozzles. Created with corn in mind, the droplet size is healthy & the rotating streams penetrate through the foliage much better than conventional sprays. As a rotating type sprinkler the A3000 produces a wider pattern, compared to sprays, resulting in a lower application rate, reduced runoff, higher uniformity & longer soak times.

Part No.	Description	Price
A3000	Complete Assembly w/3TN & 3/4" MNPT	\$19.26
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
9428	A/D3000 Body	\$1.39
9906	A3000 Plate	\$3.50
10402	A3000 Cap/Motor	\$11.16

NELSON T3000 TRASHBUSTER SPRAYHEAD

Land application of wastewater through center pivots is proving itself to be an excellent solution. Proper waste management through a center pivot can be both cost effective & environmentally safe. Land applications of wastewater include livestock waste, municipalities, industrial processing & food processing. The T3000 TRASHBUSTERS open body design allows debris to pass off the plate with reduced opportunity of clinging to the struts. Commonly used with medium 30 groove plates to reduce the chance of debris sticking to a deeper grooved plate. The T3000 is also used with 3000FCN Flow Control Nozzles to reduce plugging.

Part No.	Description	Price
T3000	Complete Assembly w/3TN & 3/4" MNPT	\$9.17
T3000	Complete Assembly w/FCN & 3/4" MNPT	\$17.31
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
10106-####	3000FCN Flow Control Nozzle	\$9.94
10419	T3000 Body	\$2.29
Specify Color	T3000 Cap & Plate	\$3.69

NELSON O3000 ORBITOR® (10-15 PSI)

Featuring technology that eliminates the struts of a sprinkler body, Nelson's new Pivot Orbitor provides outstanding uniformity and optimal droplets at low pressures (10-20 psi). Expect long wear life and durability in poor water conditions, because there are no sprinkler body struts for debris to hang up on.

Part No.	Description	Price
O3000	Complete Assembly w/3TN & 3/4" MNPT	\$35.17
9410	3000 Adapter 3/4" MNPT	\$1.38
9461-###	3TN Nozzle	\$1.81
11488	O3000 Body & Weight	\$31.98

NELSON 3000 SERIES PIVOT PRODUCTS & ACCESSORIES

3TN DUAL NOZZLE CLIP

Holds two separate 3TN nozzles for dual-flow sprinkler packages. Change flow rates quickly & accurately to meet differing application requirements & seasonal demands. No reading the printout on a wet or windy day & no searching through the bucket to find the right nozzle. Just twist off the body & flip the clip over. Clips are clearly marked with a HI on the square side and LO on the rounded side.

Part No.	Description	Price
9742	Dual Nozzle Clip Only	\$1.53

3TN TRIPLE NOZZLE CLIP

Holds three separate 3TN nozzles for tri-flow sprinkler packages. Change flow rates quickly & accurately for those wells that just won't stay constant. Same easy change method as the dual nozzle clip. Three nozzle chambers clearly marked with a 1 LOW pointed side, a 2 MED round side & a 3 HIGH square side. Do not use with D3000 red plate.

Part No.	Description	Price
11089	Triple Nozzle Clip Only	\$2.38

SQUARE THREAD X HOSE BARB ADAPTER

For use when installing from 3/4" drop hose directly into a Nelson 3000 Series sprinkler. Eliminates additional fittings & saves time & labor.

Part No.	Description	Price
9901	Square Thread x Hose Barb Adapter	\$1.46

NELSON 3000 SERIES BLUE TOP REGULATORS

Nelson introduces the new single strut regulator design. Instead of having 3 or 4 struts holding the regulator seat in place, all new Blue Top regulators will have one heavy duty strut only. This opens up the seat area to help reduce plugging on the upstream side of the regulator. Along with the standard 3/4" FIPT by 3/4" FIPT model, Nelson makes the 3/4" FIPT by square thread (ST) model. This eliminates the need & cost of a threaded adapter, as the regulator screws directly into the body of any 3000 Series sprinkler.

PSI	Universal-Flo (GPM)	Hi-Flo (GPM)

CONTROL VALVES

NELSON 800 SERIES CONTROL VALVES

As a hydraulically operated sleeve-type valve, the 800 Series Control Valve is designed for versatility. The basic body can be equipped with several different options for controlling pressure and flow in piping systems ranging from drip irrigation to center pivot end guns. It's also engineered for extremely high efficiency, resulting in low pressure loss and high flow capacity.

The MANUAL ON-OFF model of the 800 Series Control Valve is a hydraulically operated sleeve type valve with a manual control function.

The ELECTRIC ON-OFF model of the 800 Series Control Valve is a hydraulically operated sleeve type valve with an electric solenoid control.

Pressure control valves react or respond through a pressure control regulator.

The basic 800 Series Control Valve body can be equipped with several different control packages in various combinations for controlling pressure and flow in large piping systems.

The Nelson 800 Series valve can be equipped with the Rate-Of-Flow (Model D18) control to regulate the flow rate passing through the valve.

TO ORDER: Select one option from each of the five sections to build the valve description code and price.

SPECIFY VALVE SIZE

*Contact Factory for full solenoid specifications.

Other models available for special order.

†Normally closed solenoid for pressure sustaining, normally open valve ("PSNO") for applications at filter stations.

CLOSED: Upstream water is applied to the outer sleeve chamber, the sleeve becomes hydraulically balanced & the flow passage is closed off by the sleeve pressing against the center seat.

OPEN: Water pressure is relieved from the sleeve chamber, allowing the valve to open.

Nelson Control Valves come standard normally closed.

Use the following codes to specify non-standard, normally open, or special solenoid plumbing logic.

Optional Solenoid Logic											
Solenoid Only			Sustaining w/ Solenoid			Reducing w/ Solenoid			Sustaining/Reducing w/ Solenoid

* 2" Valve available with solenoid in either a vertical (V) mount position or horizontal (H) mount position for proper endgun drainage to reduce the possibility of damage due to freezing. Specify either a vertical or horizontal valve when ordering.

NOTE: (1) All electric valves are equipped with a 110VAC solenoid unless otherwise specified.

(2) All valves are normally open (NO) unless otherwise specified.

(3) All valves are cast iron with buna seals & diaphragms unless otherwise specified.

(4) All valves larger than 1" are equipped with spring assist to open (SAO) and the #1 hole drilled and tapped to accept solenoid.

Call for "options" pricing. Options: normally closed, spring assist open, spring assist closed, Limit Stop, Viton Seals, Solenoids with 24VAC, 24VDC, 12VDC, 220VAC, Drill & Tap Bosses.

END GUN BOOSTER PUMP

PIVOT END GUN BOOSTER PUMP & ACCESSORIES

This quality booster pump is built to meet the heavy-duty demands of its application. It is available as a 2HP model. No need to disturb pipe for normal maintenance. It has the same housing design as Berkley and will interchange with Berkley. Simply unbolt the old Berkley unit and replace it with the X-CAD model.

PIVOT END GUN BOOSTER PUMP

PIVOT DRIVE COMPONENTS

TELESCOPING DRIVELINE WITH COUPLER ENDS

This is the ultimate time saving device. Typical installation requires 5-10 minutes. The telescoping feature makes lengths easily adjustable without having to cut driveshafts in the field. Heavy-duty materials and construction provides more durability than standard driveshafts. Made of square steel tube with 1" round ends for connection to gear boxes.

Part No.	Description	Price
PDLEXP	Telescoping Driveline w/Coupler Ends	\$91.08

UNIVERSAL STEEL DRIVELINE COUPLER

• One size fits all 3/4", 7/8" and 1" driveshafts • Flex in the disc eliminates shock on start up • No slack anyplace - takes jump out of gearboxes • Slotted 1" round end allows for tightening on worn shafts and prevents the U-Joint from freezing on the shaft • The disc is the only part that wears and it can be easily replaced • Clamps on to twisted driveshafts • Made with a milled angle for a tighter fit • Only 3 bolts and 5 nuts to tighten (stainless steel) • One 9/16" wrench fits everything • Longer lasting than aluminum couplers.

Part No.	Description	Price
U-JOINT-4.5	Universal Steel Driveline Coupler w/Large Disc	\$42.00
U-JOINT-3.5	Universal Steel Driveline Coupler w/Small Disc (Bell-Insert)	\$42.00
U-JOINT-DISC-LG	Large Disc for Steel U-Joint	\$10.64
U-JOINT-DISC-SM	Small Disc for Bell Insert	\$9.60
U-JOINT-BOLTKIT	Angle Bolt, Nuts, and Washers	\$6.00

DOUBLE ANGLE U-JOINT

This U-Joint is made for the 11.2 x 38 tires where there is a large amount of torque involved. They can also be used in place of the bell-insert U-Joint on any size of tire. They cannot be used when the driveline and gearbox are not in-line.

Part No.	Description	Price
U-JOINT-DBL-ANG	Double Angle U-Joint	Call
U-JOINTBELL02	Double Disc Bell Insert U-Joint	Call

UNIVERSAL U-JOINT

This U-Joint quickly attaches to both 3/4" and 7/8" driveshafts. Slotted 1" round end attaches to gearbox.

Part No.	Description	Price
PDLUNIV	Universal U-Joint for 3/4" or 7/8" Driveshafts	\$33.10

UMC FINAL DRIVE WHEEL GEARBOX

725 SERIES - OUR MOST POPULAR MODEL

- 50:1 (725U) gear ratio
- 2-1/4" output shaft
- extended length hub design allows greater bearing spacing to accommodate higher load requirements

- peak torque in excess of 69,000 in.-lbs.
- dual input seals
- high strength cast iron bolt-on end caps
- universal multimount bolt pattern

725TNT TOWABLE SERIES

- 50:1 (725UTNT) gear ratio
- 2-1/4" output shaft
- positive lock in both tow and non-tow positions

- easy to disengage for towing
- universal mount fits most systems
- lighter than standard towable units
- available with hydraulic adapter

740 SERIES

- 50:1 (740U), 52:1 (740UV), 52:1TNT (740UV-TNT) gear ratios available
- 2-1/4" output shaft
- heavy-duty worm input bearings
- extra heavy-duty wheel gearbox for heavier towers

- tested loads in excess of 125,000 in.-lbs.
- special crop guard seals on all shafts
- universal multimount bolt pattern

745 SERIES

- 50:1 (745U) gear ratio
- 2-1/2" output shaft
- high strength steel output shaft and forged worm

- input shaft guard included
- universal multimount bolt pattern
- available with towable hub

760 SERIES

- 50:1 (760U) gear ratio
- precision ground 2-1/2" output shaft
- dual output & input seal with external grease lube capabilities
- static load tested in excess of 145,000 in.-lbs.

- bolt pattern fits all pivots & lateral/linear systems
- includes A-110 bolt pattern
- full cycle expansion chamber
- optional bronze gear

Part No.	Description	Shaft Size	Gear Ratio	Type	Price
06147-105A	725U Universal Gearbox	2-1/4" Short	50:1	Non Tow	\$488.20

NO SPIN LUG

Tower stuck? This successfully tested and field proven product, widely acclaimed by dealer and grower alike, is your solution to the problem. Uniquely designed and manufactured of steel to meet the rigorous demands of its heavy-duty application, yet lightweight - approximately 19 lbs. - making it easy to transport into the field where it can simply and easily be installed in seconds on either lead or trailing tire. Best results are obtained when two units are installed per tower - one on each tire - at 180 degree positioning, allowing for increased digging traction. Stays clean even in clay soils. Little or no maintenance required.

MCCROMETER FLOW METER

McCrometer flow meters are an economical choice for dependable flow measurement. The measuring device of this flow meter is a propeller, which when positioned in the center of the flowstream, will rotate at a velocity proportional to the velocity of the fluid moving through the flow meter. This rotation is transmitted mechanically to a register, and the fluid's volumetric flow rate and accumulated volume is then displayed via an instantaneous flow indicator and totalizer. The register case is hermetically sealed with a hinged lens cover and locking hasp. All McCrometer products are thoroughly tested and inspected during manufacture and prior to shipping. These meters require a minimum 5 diameters of straight pipe upstream and a minimum of 1 diameter of straight pipe downstream of the flow meter. Also required is a full pipeline of water for an accurate measurement. Although most installations are horizontally oriented, McCrometer flow meters can be specially ordered for vertical installation if needed. When properly ordered and installed, accuracy is guaranteed to be within + or - 2% of the actual flow.

- The model MO300 bolt-on saddle flow meter is our most popular and economical flow meter. It features a stainless steel saddle which eliminates the fatigue-related breakage common to cast iron and aluminum saddles and provides unsurpassed corrosion protection.
- The model ML100 irrigation flow meter is designed to provide accurate flow measurements at moderate pressure ratings in an inexpensive package. This low cost flanged tube meter is also a very popular selection, where a flanged connection is preferred.
- The model MF100 flanged meter features heavier steel construction which may be more desirable at higher operating pressures.

NOTE: Grayline actuator part numbers and price are for 110 volt single phase.
 Grayline actuators based on 50PSI working pressure. Please advise if actual operating pressure exceeds 50PSI.
 Grinnell actuators are universal voltage covering a range from 24 to 240 volts AC or DC, 1 phase 50/100 HZ.

CONTROL VALVES

NELSON 800 SERIES CONTROL VALVES

As a hydraulically operated sleeve-type valve, the 800 Series Control Valve is designed for versatility. The basic body can be equipped with several different options for controlling pressure and flow in piping systems ranging from drip irrigation to center pivot end guns. It's also engineered for extremely high efficiency, resulting in low pressure loss and high flow capacity.

The MANUAL ON-OFF model of the 800 Series Control Valve is a hydraulically operated sleeve type valve with a manual control function.

The ELECTRIC ON-OFF model of the 800 Series Control Valve is a hydraulically operated sleeve type valve with an electric solenoid control.

Pressure control valves react or respond through a pressure control regulator.

The basic 800 Series Control Valve body can be equipped with several different control packages in various combinations for controlling pressure and flow in large piping systems.

The Nelson 800 Series valve can be equipped with the Rate-Of-Flow (Model D18) control to regulate the flow rate passing through the valve.

TO ORDER: Select one option from each of the five sections to build the valve description code and price.

SPECIFY VALVE SIZE

*Contact Factory for full solenoid specifications.

Other models available for special order.

†Normally closed solenoid for pressure sustaining, normally open valve ("PSNO") for applications at filter stations.

CLOSED: Upstream water is applied to the outer sleeve chamber, the sleeve becomes hydraulically balanced & the flow passage is closed off by the sleeve pressing against the center seat.

OPEN: Water pressure is relieved from the sleeve chamber, allowing the valve to open.

Nelson Control Valves come standard normally closed.

Use the following codes to specify non-standard, normally open, or special solenoid plumbing logic.

Optional Solenoid Logic											
Solenoid Only			Sustaining w/ Solenoid			Reducing w/ Solenoid			Sustaining/Reducing w/ Solenoid

TRANSITIONAL BOLTED REPAIR COUPLINGS

POWER SEAL HEAVY DUTY CAST IRON BOLTED TRANSITION COUPLING

This high quality coupler is designed & manufactured for irrigation, municipal & industrial applications. Additional coupler sizes are available upon request. To order, any combination of pipe O.D. ranges can be paired within a nominal pipe size to make a transition connection. Example: to connect 4" IPS steel or PVC (4.50" O.D.) to 4" asbestos cement (5.33" O.D.) order the 3501-4AC coupling.

MODEL 3501 SHORT TRANSITION COUPLING - 6" LENGTH

POWER SEAL PIPE REPAIR CLAMP WITH TAPPED OUTLET

To add-on a female iron thread tapped outlet to a repair clamp, add the outlet size to the end of the part number.. Combine the pipe repair clamp price listed above with the outlet list price add-on listed below for a total list price.

POWER SEAL MODEL 3141 IRON LUG COLLAR LEAK

Similar to model 3121 pipe repair clamps, but used to provide a simple & permanent repair for leaking solvent weld PVC bells & collars as well as threaded steel pipe collars. These are not recommended for leaking push-on-joint gasketed bells. When ordering: Specify Model Number, Pipe Size with Collar Type, and Width. EXAMPLE: 4" Steel O.D. 450 with 6" wide Schedule 40 Collar. Order 3141 - 4" Sch 40 x 8. Part Number: 3141040080HA .

Note: Exhaust Primers are not recommended for use on turbo engines.

HP SERIES HAND DIAPHRAGM PUMP

Part No.	Description	Inlet / Outlet Size	Price
HP700	Aluminum Diaphragm Pump	1-1/2"	\$869.79
HP900	Aluminum Diaphragm Pump	2"	\$1,004.22

The Exhaust Primer is an air ejector adapted to an engine-driven pump. An adapter is attached to the exhaust stack to which the ejector is attached, and a lever-operated "exhaust valve" is provided by which the engine exhaust gases are momentarily diverted through the ejector during the priming period. "Momentarily" means 10 seconds to 2 minutes depending on the suction lift and length and size of the suction line. It operates on low engine exhaust pressure. When the exhaust valve is closed, the gases are directed through the ejector nozzle and air is drawn from the pump through the ejector suction.

All standard Protek Exhaust Primers are designed to operate at 12 to 14 PSI and thereby provide maximum lift and rapid priming.

SELF CLEANING PUMP SUCTION SCREEN

The pump suction screen is attached to the end of the pump suction line by way of a standard flange. All water pulled in must go through the screen before entering the intake pipe. The 10, 18 or 30 mesh heavy stainless steel screen stops trash and debris from entering & creating problems associated with plugging. A small sidestream pump discharge return line drives two spray bars that continually rotate jet streams at the screen & blasts debris away from the screen. The unit is manufactured with heavy galvanized steel construction & a removable exterior basket for servicing.

PVC SCHEDULE 80 NIPPLES

PVC Nipples furnished may be produced from extruded stock, or from molded grade PVC compounds. Both processes provide quality products meeting ASTM requirements. Half size nipples not shown are priced the same as the next full size. For example: 7-1/2" is priced the same as 8". Contact us for price & availability of sizes, lengths, and / or configurations not shown.

To order PVC Sch. 80 Threaded Nipples, list the Diameter Code followed by the Length Code. For Example, in ordering 2" x 6" Nipples, the order number will read 887-060

PRESSURE REGULATORS

NELSON MINI REGULATOR

For systems in which pressure ranges are excessive, the Nelson Mini Regulator provides uniform flow and distribution at each sprinkler. The acme thread outlet directly connects to the sprinkler body. Connection options include 1/2" FPT inlet x acme outlet or acme x acme. Pressure options include 20, 30, 35, 40, 45 and 50 PSI.

Part No.	Description	Price
10020-XXX	Mini Regulator 1/2" FIPT x Acme Thread	\$8.52
10099-XXX	Mini Regulator Acme x Acme	\$8.52

XXX = 020 (20 PSI), 030 (30 PSI), 035 (35 PSI),
040 (40 PSI), 045 (45 PSI), 050 (50 PSI)

Radius in feet. Measured indoors in no wind with plates mounted 18 inches above collection cups. The absence of data for a particular model/plate/nozzle combination indicates the pressure is outside the recommended range.

AG - NELSON FEEDTUBE ASSEMBLIES

One of the most common ways to install D10, S10, R10 Series or R2000 Series Product is on a PVC riser extending from a permanent, often buried, lateral pipeline. However, because this is not always desirable considering cost, convenience, portability requirements and a host of other related issues, Nelson has developed several feedtube options. These versatile stake mounting options feature durable UV and kink resistant flexible PVC tubing. They provide for fast and simple installation, easy nozzle cleaning (kink the tubing to stop the flow), and low cost with a high value. The FT1 and FT2 feedtube assemblies are for use with the R10 due to the small .19" ID feedtube used in the assembly, which prohibits higher flow products. The FT4 and FT5 feedtube assemblies utilize a larger .37" ID flexible PVC feedtube and should be used for products requiring nozzle size #65 or larger. FT4 and FT5 feedtube assemblies connect R10 Series, R2000 Series, S10 and D10 products to polyethylene laterals. FT4 is for permanent connection and FT5 has a quick connect and disconnect feature for portable lateral systems. Both assemblies are mounted with steel stakes. With the addition of collar #9195 to FT4 and FT5, they can be converted to mount on a 3/4" PVC stake. Please call us if you have any questions which relate to these fine products.

FT1 FEEDTUBE ASSEMBLY FOR THE R10 #9308-030

FT2 FEEDTUBE ASSEMBLY FOR THE R10 #9741-030

FT4 FEEDTUBE ASSEMBLY FOR THE R10, R10 TURBO, R2000, R2000WF, S10 & D10 #9752-036

FT5 FEEDTUBE ASSEMBLY FOR THE R10, R10 TURBO, R2000, R2000WF, S10 & D10 #9737-048

LF12NXXZYY	Yellow, 38 Drill .102"	17° Powder Blue / 41" - 61"	36' / 1.89 GPM	
LF12NXXZYY	Yellow, 38 Drill .102"	21° Olive Green / 50" - 73"	36' / 1.89 GPM	

RAIN BIRD® LF2400 FULL CIRCLE PLASTIC IMPACTS

Part No.	Nozzle Options	Deflector / Height	Radius/Flow @ 40 PSI	Price
LF24NXXZYY	Tan, 30 Drill .117"	10° Lime / 24" - 41"	33' / 2.53 GPM	\$12.63 - \$13.76
LF24NXXZYY	Tan, 30 Drill .117"	13° Maroon / 30" - 50"	35' / 2.53 GPM	
LF24NXXZYY	Red, 1/8" .125"	15° Tangerine / 28" - 55"	37' / 2.89 GPM	
LF24NXXZYY	Black, 29 Drill .133"	22° Dk. Green / 59" - 102"	42' / 3.25 GPM	
LF24NXXZYY	Silver, 9/64" .143"	22° Dk. Green / 59" - 102"	44' / 3.78 GPM	

XX = Deflector Angle Z = First Letter of Deflector Color YY = Nozzle Size
 All LF Series are 1/2" MIPT, Unless Designated as Acme Bodies by Changing the N in the Part No. to a A.
 Various Nozzle - Deflector Combinations are Available to Achieve the Flow & Radius that you need.
 The information included in the tables above, show radius and flow information with randomly selected
 nozzle and deflector combination operated at 40 PSI.
 Call for Performance Charts. Edge Guard, Splash Guard, Stream Splitter and Other Accessories Available.

ALUMINUM GUN STAND

This tripod style gun stand is made from aluminum, making it lighter weight and more easily transportable than steel gun stands of the same design. It is constructed with 3/4" support legs and a 3" aluminum riser. Standard height is 48". It can be ordered with either a 3" or 4" Band and Latch inlet. Other heights and connections are available upon special order.

Part No.	Description	Price
17-3	3" Inlet x 3" & 4" Mainline Clamp x 2" FIPT & 2-1/2" MIPT Top Conn.	\$670.31
17-4	4" Inlet x 3" & 4" Mainline Clamp x 2" FIPT & 2-1/2" MIPT Top Conn.	\$670.31

GALVANIZED GUN CART

This heavy-duty cart is supplied with a 3" or 4" Band and Latch inlet and a 2" FIPT x 2-1/2" MIPT or 3" FIPT outlet. A 84" long, 4" diameter, 6' axle with 46" wheels. The weight of this cart is 150 lbs. and has a corrosion resistant galvanized coating. Other options are available upon request. This price does not include a sprinkler.

Part No.	Description	Price
5046-3	Two Wheel Gun Cart 3" B & L Inlet X 2" FIPT / 2-1/2" MIPT Outlet	\$1,067.08
5046-4	Two Wheel Gun Cart 4" B & L Inlet X 2" FIPT / 2-1/2" MIPT Outlet	\$1,028.66

KURIYAMA VINYL FLOW LITE™ GENERAL PURPOSE LAYFLAT HOSE

This is a tough, economical, general purpose PVC water discharge hose featuring polyester yarn reinforcement & homogeneous PVC tube & cover. The homogeneous virgin PVC construction eliminates separation of tube & cover the high tensile polyester yarn reinforcement provides strength & durability. Nu-Flo™ is ideally suited for construction, agriculture, mining & open end water discharge applications requiring low to medium working pressure. All sizes are available in 300' coils, or by the foot at a increased price to cover handling.

KURIYAMA VINYLFLOW® PREMIUM DRIP IRRIGATION LAYFLAT HOSE

This is a premium water discharge hose featuring a balanced polyester yarn spiral wrap, longitudinal strength member, & homogeneous PVC tube & cover. It is used for general purpose discharge applications, & is ideal for use as a drip irrigation supply line as it can be punched easily without tearing for fitting insertion. Vinylflow® lays straight with minimal elongation under pressure. Its homogeneous tube & cover construction eliminates separation. Ultraviolet inhibitors reduce aging & weather cracking. Sizes through 8" available in 300' coils and sizes 10" through 16" available in 100' coils. Layflat may be purchased by the foot at a increased price to cover handling.

KURIYAMA IRONSIDES® HEAVY-DUTY LAYFLAT HOSE

This hose has a premium quality PVC tube & cover, reinforced with two spiral plies & longitudinal synthetic cords. It is used for irrigation, agriculture, quarry, mining, construction & industrial applications. It has a high working pressure, resists kinking & twisting, making it excellent to use with a portable hydrant or as a relay supply line hose. It has a high U.V./ozone resistance. All sizes are available in 300' coils, or by the foot at a increased price to cover handling.

KURIYAMA TIGERFLEX BW "BLUE WATER" SUCTION & DISCHARGE HOSE

This is a multi-purpose low temperature suction & transfer hose for use in irrigation, agriculture, construction, mining & for abrasive liquid applications. It has a clear body with a blue helix & is constructed from HMW clear PVC resin to allow for visual confirmation that material is flowing. The HMW PVC body provides sub-zero flexibility & increased abrasion resistance compared to standard PVC. It is made with a smooth cover on sizes 3/4" - 4" making clamping easy, & a convoluted cover on 5" & 6" for greater flexibility. The service temperature range is -40°F to 150°F. All sizes are available in 100' coils. In addition, 5" & 6" is available in 20' lengths. Available for purchase by the foot or by the coil.

KURIYAMA TIGERFLEX TG "TIGER GREEN" EPDM SUCTION & DISCHARGE HOSE

This is a suction hose for outdoor wet or dry applications. It is constructed from black flexible EPDM rubber with a bright green polyethylene helix, providing for an excellent blend of chemical resistance & physical durability. Its features include excellent cold weather flexibility, a U.V. weather resistant exterior, a specially designed abrasion resistant helix, a smooth bore interior to eliminate material buildup, a convoluted cover design to provide increased flexibility, & it's lightweight. General applications include irrigation, agricultural, liquid & dry fertilizer & chemical, liquid waste, slurries, septic handling, water transfer, mining & construction. The service temperature range is -40°F to 160°F. All sizes available in 100' coils, or by the foot at an increased price to cover handling.

KURIYAMA ALFAGOMMA® WATER SUCTION & DISCHARGE HOSE

This is a multi-purpose water suction & discharge hose for delivery of non-corrosive liquids for irrigation & construction. Model T202AA, sizes 2", 3" & 4", is manufactured from black EPDM rubber, & as such will accept fertilizers & lasso acid solutions. Models T203AA & T204AA, sizes 6", 8", 10" & 12", are manufactured with black SBR rubber. Each features a spiralled high tensile textile cord & flexible helix wire reinforcement. This hose is weather & ozone resistant. The service temperature range is -22°F to 176°F. Available for purchase by the foot or by the coil.

KURIYAMA ALFAGOMMA® BLACK PETROLEUM SUCTION & DISCHARGE HOSE

This hose is for suction & discharge applications in truck & tank car transfer of gasoline, oil & other petroleum based products with up to 50% aromatic content. The hose construction is of black conductive NBR for the tube, high tensile textile cord & 4 highly flexible steel helix wire reinforcement, & abrasion & ozone resistant black nitrile PVC for the cover. The service temperature range is -40°F to 212°F. All sizes are available in 100' coils, and may be purchased by the foot or by the coil.

CLAMPS

NOTE: Clamp sizes listed are generic & are intended only as a guide to direct you to the general area of the clamp size you're looking for. To select the proper clamp for your needs, compare the hose OD to the clamp range & select the clamp that best fits the outside diameter of your hose. If you would like some help with your selection, please give us a call.

Good for medium & heavy-duty applications. Provides high tensile strength - higher clamping force than worm gear clamps. Manufactured with durable & corrosion resistant 300 series stainless steel. The solid band with rounded edges prevents damage from hose extrusion.

94100 Series clamp has a 3/4" wide band & 1/4" zinc plated T-Bolt with locknut.

95130 Series clamp has a 7/8" wide band & 5/16" zinc plated T-bolt with locknut.

These Spin Clean® filters are unique in that incoming water is forced through a directional nozzle plate onto the inside of the all stainless steel filter screen. This centrifugal control of the contaminated water helps prevent debris build up on the filter screen by constantly rotating the particles and forcing them toward the debris holding basin at the bottom of the filter. By opening the flush valve periodically, the particles can be removed, or the 4E can be made self cleaning by constantly bleeding the contaminates through the flush valve which has been set slightly open.

JAIN® 4-E HIGH FLOW STEEL SCREEN FILTERS

2" 4-E SERIES FLANGED STEEL FILTER

Part No.	Model	Max Flow GPM	Screen Mesh	Price

AGRI-INJECT FERTILIZER INJECTION SYSTEM

18 GPH MROY A SIMPLEX FERTILIZER SYSTEM

Part No.	Description	Price
881-01-111018-0	Complete System w/Switch, Strainer, Mister Mist'r, 1PH	Call
881-02-111018-0	Complete System w/Switch, Strainer, Mister Mist'r, 12V	Call
881-03-111018-0	Complete System w/Switch, Strainer, Mister Mist'r, 3PH	Call

26 GPH MROY D SIMPLEX FERTILIZER SYSTEM

Part No.	Description	Price
881-01-111026-0	Complete System w/Switch, Strainer, Mister Mist'r, 1PH	Call
881-02-111026-0	Complete System w/Switch, Strainer, Mister Mist'r, 12V	Call
881-03-111026-0	Complete System w/Switch, Strainer, Mister Mist'r, 3PH	Call

30 GPH MROY A SIMPLEX FERTILIZER SYSTEM

Part No.	Description	Price
881-01-111030-0	Complete System w/Switch, Strainer, Mister Mist'r, 1PH	Call
881-02-111030-0	Complete System w/Switch, Strainer, Mister Mist'r, 12V	Call
881-03-111030-0	Complete System w/Switch, Strainer, Mister Mist'r, 3PH	Call

52 GPH MROY D SIMPLEX FERTILIZER SYSTEM

Part No.	Description	Price
881-01-111052-0	Complete System w/Switch, Strainer, Mister Mist'r, 1PH	Call
881-02-111052-0	Complete System w/Switch, Strainer, Mister Mist'r, 12V	Call
881-03-111052-0	Complete System w/Switch, Strainer, Mister Mist'r, 3PH	Call

55 GPH MROY G SIMPLEX FERTILIZER SYSTEM

Part No.	Description	Price
881-01-111055-0	Complete System w/Switch, Strainer, Mister Mist'r, 1PH	Call
881-02-111055-0	Complete System w/Switch, Strainer, Mister Mist'r, 12V	Call
881-03-111055-0	Complete System w/Switch, Strainer, Mister Mist'r, 3PH	Call

110 GPH MROY G SIMPLEX FERTILIZER SYSTEM

Part No.	Description	Price
881-01-111110-0	Complete System w/Switch, Strainer, Mister Mist'r, 1PH	Call
881-02-111110-0	Complete System w/Switch, Strainer, Mister Mist'r, 12V	Call
881-03-111110-0	Complete System w/Switch, Strainer, Mister Mist'r, 3PH	Call

150 GPH MROY G SIMPLEX FERTILIZER SYSTEM

Part No.	Description	Price
881-01-111150-0	Complete System w/Switch, Strainer, Mister Mist'r, 1PH	Call
881-02-111150-0	Complete System w/Switch, Strainer, Mister Mist'r, 12V	Call
881-03-111150-0	Complete System w/Switch, Strainer, Mister Mist'r, 3PH	Call

AGRI-INJECT MISTER MIST'R® INJECTION CHECK VALVE & ACCESSORIES

MINI MIST'R® - POLY (UP TO 5 GPH)

Part No.	Size	Description	Price
820-02-060000-0	3/4" x 3/8" x 5"	Mini Mist'r Assembly	Call
820-02-000100-0		Mini Mist'r Assembly & Bleeder	Call

"SHORTY" MISTER MIST'R® - POLY - 15 PSI (UP TO 60 GPH)

Part No.	Size	Description	Price
820-02-008128-0	3/4" x 1/4" x 4"	"Shorty" Mister Mist'r®	Call
820-02-000200-0		"Shorty" Mister Mist'r® & Bleeder	Call
820-02-008128-1		"Shorty" Mister Mist'r®, Acid	Call
820-02-000200-1		"Shorty" Mister Mist'r® & Bleeder, Acid	Call

MISTER MIST'R® - POLY - 15 PSI (UP TO 60 GPH)

Part No.	Size	Description	Price
820-02-008000-0	3/4" x 1/4" x 6"	Mister Mist'r®	Call
820-02-000000-0		Mister Mist'r® & Bleeder	Call
820-02-008000-1		Mister Mist'r®, Acid	Call
820-02-000000-1		Mister Mist'r® & Bleeder, Acid	Call

MISTER MIST'R® - STAINLESS STEEL - 20 PSI (UP TO 300 GPH)

Part No.	Size	Description	Price
820-50-016128-0	3/4" x 1/2" x 4"	Mister Mist'r®	Call
820-50-000000-1		Mister Mist'r® & Bleeder	Call
820-50-016256-0	3/4" x 1/2" x 8"	Mister Mist'r®	Call
820-50-000000-0		Mister Mist'r® & Bleeder	Call

MISTER MIST'R® - CPVC - 20 PSI (UP TO 200 GPH)

Part No.	Size	Description	Price
820-01-014256-0	3/4" x 1/2" x 3"	Mister Mist'r®, Acid	Call
820-01-016256-0	3/4" x 1/2" x 6"	Mister Mist'r®, Acid	Call
820-05-000000-0		Mister Mist'r® & Bleeder, Acid	Call

BLEEDER VALVES & FITTINGS

Part No.	Size	Description	Price
821-02-008008-0	1/4"	Bleeder Valve Assembly, PP	Call
821-02-008000-0	1/4"	Bleeder Valve & Fitting Assembly	Call
821-02-008000-A	1/4"	Bleeder Valve & Fitting Assembly, Acid	Call
199-01-012008-1	3/8" x 1/4"	JG Male Connector	Call
199-09-012012-1	3/8" x 3/8"	JG Plug-In Elbow	Call
198-19-012008-0	3/8" x 1/4"	TS Male Connector, Acid	Call
198-19-012012-0	3/8" x 3/8"	TS Plug-In Elbow, Acid	Call
260-02-187125-0	.187" x .125"	Microtube PE, 1 Ft.	Call
821-02-008008-1	1/4"	Bleeder Valve Assembly & Plug	Call
821-01-016000-0	1/2"	Bleeder Valve & Fitting Assembly	Call
821-01-016024-0	1/2" x 3/4"	Bleeder & Fitting Assembly	Call

MISTER MIST'R® HOSE ASSEMBLIES & FITTINGS

Part No.	Size	Description	Price
849-10-008012-0	1/4" x 3/8" x 12'	Hose Kit, High Pressure, Black	Call
849-10-008012-1	1/4" x 3/8" x 20'	Hose Kit, High Pressure, Black	Call
849-10-016012-0	1/2" x 3/8" x 12'	Hose Kit, High Pressure, Black	Call
849-07-016012-0	1/2" x 3/8" x 12'	Hose Kit, Grey Braid	Call
199-13-012008-0	3/8" x 1/4"	JG Male Connector to Hose	Call
199-13-012012-1	3/8" x 3/8"	JG Male Connector to Hose	Call
199-13-012016-1	3/8" x 1/2"	JG Male Connector to Hose	Call
198-19-012008-5	3/8" x 1/4"	TS Male Connector to Hose	Call
198-19-012012-5	3/8" x 3/8"	TS Male Connector to Hose	Call

INJECT-O-METER CHEMIGATION CHECK VALVE

316 Stainless Steel Construction and Viton Seat for Strength and Chemical Resistance
 *Self Cleaning *3 Directional Spray *Meets Federal Requirements

MAX-94 CHEMIGATION CHECK VALVE AND ACCESSORIES

Part No.	Description	Price
049-085	Max-94 Stainless Steel Chemigation Check Valve	Call

NELSON R5 ROTATOR® PRODUCTS

The R5 Rotator® is a completely different micro sprinkler, with a unique and patented drive principle. The water stream emitting from the nozzle is directed into an offset channel on the rotor plate, creating a reactionary drive force. A viscous silicone fluid in the rotor motor controls the rotation speed. Rotator® technology gives the R5 high uniformity and a distance of throw greater than that of any other micro sprinkler.

The R5 Rotator® is available with either a standard or flow control nozzle. The flow control nozzle option for the R5 Rotator® features a flow control nozzle that regulates flow starting as low as 15 PSI. Commonly used micro sprinklers with pressure compensation are not recommended for use under 20 PSI. Flow Control Nozzles deliver more accurate flow regulation at lower pressures. Further, they assure uniform application of water throughout the crop.

Always use the recommended pressure for a given plate and nozzle combination. The absence of flow data on the chart below for a particular plate / nozzle combination indicates the pressure is outside the recommended range. Filtration is suggested to be 75 mesh or finer. The plate and nozzle of the R5 should not be removed when cleaning plugged nozzles. Any attempt to do so will likely cause permanent damage. Please give us a call if you have any questions pertaining to the R5.

TAPE-LOC® COUPLING

Part No.	Description	Bag Qty.	Price
12030062	5/8" Tape-Loc Coupling *Orange Ring	50	\$0.80
12030032	7/8" Tape-Loc Coupling *Orange Ring	50	\$1.33

TAPE-LOC® X COMPRESSION

Part No.	Description	Bag Qty.	Price
12030033	5/8" Tape-Loc x 16mm Compression	50	\$1.75
12030041	7/8" Tape-Loc x 16mm Compression	50	\$2.53
12030047	1-3/8" Tape-Loc x 3/4" Compression	25	\$2.53

TAPE-LOC® X SOCKET/SPIGOT

Part No.	Description	Bag Qty.	Price
12030085	5/8" Tape-Loc x 1/2" Soc / 3/4" Spigot	50	\$1.26
12030087	7/8" Tape-Loc x 1/2" Soc / 3/4" Spigot	50	\$1.59
12030088	7/8" Tape-Loc x 3/4" Soc / 1" Spigot	50	\$1.65
12030090	1-3/8" Tape-Loc x 1" Soc / 1-1/4" Spigot	25	\$3.62

TAPE-LOC® X BARB

Part No.	Description	Bag Qty.	Price
12030004	5/8" Tape-Loc x 250 (1/4") Barb	50	\$0.73
12030008	5/8" Tape-Loc x 400 (3/8") Barb	50	\$0.73
12030014	5/8" Tape-Loc x 700 (1/2") Barb	50	\$0.82
12030015	7/8" Tape-Loc x 700 (1/2") Barb	50	\$1.51

TAPE-LOC® X MALE THREAD

Part No.	Description	Bag Qty.	Price
12030076	5/8" Tape-Loc x 1/2" MIPT	50	\$1.09
12030077	7/8" Tape-Loc x 3/4" MIPT	50	\$1.59
12030017	5/8" Tape-Loc x 3/4" MHT	50	\$1.21

TAPE-LOC® X LAY FLAT CONNECTOR

Part No.	Description	Bag Qty.	Price
12030063	5/8" Tape-Loc x Lay Flat	50	\$1.62
12030065	7/8" Tape-Loc x Lay Flat	50	\$2.60

TAPE-LOC® TEE

Part No.	Description	Bag Qty.	Price
12030092	5/8" Tape-Loc Tee	50	\$2.91

TAPE-LOC® X COMPRESSION TEE

Part No.	Description	Bag Qty.	Price
12030100	5/8" Tape-Loc Tee x 16mm Comp. Tee	50	\$2.86

TAPE-LOC® 90° ELBOW

Part No.	Description	Bag Qty.	Price
12030049	5/8" Tape-Loc Elbow	50	\$2.61

JAIN® POLY BARBED & THREADED FITTINGS

JAIN® POLY BARBED & THREADED FITTINGS

FORMULAS FOR CALCULATING	
VOLUME OF A-	
CUBE	AREA OF BASE x HEIGHT
PYRAMID	1/3 AREA OF BASE x HEIGHT
SPHERE	DIAMETER CUBED x .5236
AREA OF A-	
CIRCLE	RADIUS SQUARED x 3.1416
SQUARE	ONE SIDE SQUARED
TRIANGLE	1/2 BASE x HEIGHT
RECTANGLE	LENGTH x WIDTH
PARALLELOGRAM	BASE x HEIGHT
CIRCUMFERENCE OF A-	
CIRCLE	DIAMETER x 3.1416
ELEVATION VS. PRESSURE	
1 FT. OF RISE OR FALL	= .4335 PSI
1 PSI. OF RISE OR FALL	= 2.309 FT.
FRICITION LOSS FOR 100 FT. OF PIPE (HAZEN-WILLIAMS)	
$F = 0.2086 \left(\frac{100}{C}\right)^{1.85} \times \frac{Q^{1.85}}{D^{4.8655}}$	
WHERE:	
F = PRESSURE LOSS IN FT. OF HEAD/100 FT.	
C = COEFFICIENT OF INSIDE PIPE ROUGHNESS	
Q = FLOW IN GALLONS PER MINUTE	
D = INSIDE PIPE DIAMETER IN INCHES	
TO CONVERT ABOVE INFO. INTO PSI	
$PSI = \frac{F}{2.309}$	
F = Elevation Change (In Feet)	
VELOCITY	
$V = \frac{GPM}{2.45 \times ID^2}$	
WHERE:	
V = VELOCITY IN FEET PER SECOND	
GPM = GALLONS PER MINUTE	
ID = INSIDE PIPE DIAMETER IN INCHES	
POWER	
(BHP) BRAKE HORSE POWER	= $\frac{GPM \times TDH (FT.)}{3960 \times PUMP \text{ EFFICIENCY}}$
PUMP EFFICIENCY	= $\frac{GPM \times TDH (FT.)}{3960 \times BHP \text{ TO PUMP}}$
GPM = GALLONS PER MINUTE	
TDH = TOTAL DYNAMIC HEAD (IN FEET)	
PRECIPITATION RATE	
APPLICATION RATE (INCHES/HOUR)	= $\frac{(GPM/SPKLR.)96.25}{S \times L}$
S = SPKLR. SPACING ALONG LATERALS IN FT.	
L = SPACING BETWEEN LATERALS IN FEET	
NEW NOZZLE FLOWS	
$Q \text{ NEW} = \sqrt{\frac{P \text{ NEW}}{P \text{ OLD}}} \times Q \text{ OLD}$	
WHERE:	
Q = FLOW	P = PSI

TO CALCULATE	EQUATION	EXAMPLE
AREA IRRIGATED BY A CENTER PIVOT	$AC = \frac{(PL + EGR)^2}{13866}$ <p>AC = ACRES IRRIGATED PL = PIVOT LENGTH (FT.) EGR = END GUN RADIUS (FT.)</p>	FIND THE ACREAGE IRRIGATED BY A 1000' PIVOT WITH AN END GUN WITH A 130' RADIUS $AC = \frac{(1000 + 130)^2}{13866}$ AC = 92 ACRES
HOURS PER PIVOT REVOLUTION	$HPR = \frac{0.105 (LTD)}{GS}$ <p>HPR = HOURS PER REVOLUTION (HR.) LTD = DISTANCE TO LAST TOWER (FT.) GS = TOWER GROUND SPEED (FT./MIN)</p>	FIND THE AMOUNT OF TIME NEEDED FOR THE PIVOT ABOVE TO COMPLETE A REVOLUTION IF THE LAST TOWER MOVES AT 10.2 FT. PER. MINUTE. THE 1000 FOOT LENGTH INCLUDES A 40 FOOT END BOOM. LTD = 1000 FT. - 40 FT. = 960 FT. $HPR = \frac{0.105(960)}{10.2}$ HPR = 9.9 HOURS PER REVOLUTION
AMOUNT OF WATER APPLIED BY A CENTER PIVOT	$D = \frac{(30.64 Q HPR)}{(PL + EGR)^2}$ <p>D = DEPTH OF WATER APPLIED (IN.) Q = FLOWRATE (GPM) HPR = HOURS PER REVOLUTION (HR.) PL = PIVOT LENGTH (FT.) EGR = END GUN RADIUS (FT.)</p>	DETERMINE THE AMOUNT OF WATER APPLIED FOR THE 1000 FOOT PIVOT CONSIDERED ABOVE AT 700 GPM. $D = \frac{30.64 (700) (9.9)}{(1000 + 130)^2}$ $D = \frac{212,365}{1,276,900}$ D = 0.17 INCH
REQUIRED FLOW FOR A GIVEN PIVOT SPRINKLER	$Q_s = \frac{DFP (Q/AC) SS}{6933}$ <p>Q_s = SPRINKLER FLOWRATE (GPM) DFP = DISTANCE FROM THE PIVOT (FT.) Q = TOTAL PIVOT FLOWRATE (GPM) AC = ACRES IRRIGATED BY PIVOT SS = SPRINKLER SPACING (FT.)</p>	DETERMINE THE FLOWRATE REQUIRED BY A SPRINKLER LOCATED 750 FEET FROM THE PIVOT, IF THE SPRINKLER SPACING AT THAT POINT IS 17 FEET. $Q_s = \frac{(750) (700/92) (17)}{6933}$ $Q_s = \frac{97,011}{6933}$ Q _s = 14.0 GPM
CALCULATING NOZZLE FLOWRATE WITH CHANGING PRESSURE	$Q_1 / Q_2 = (P_1)^{1/2} / (P_2)^{1/2}$ $Q_2 = Q_1 (P_2 / P_1)^{1/2}$ <p>Q₁ = KNOWN NOZZLE FLOW (GPM) Q₂ = NOZZLE FLOW TO DETERMINE (GPM) P₁ = PRESSURE (PSI) FOR Q₁ P₂ = PRESSURE (PSI) FOR Q₂</p>	DETERMINE THE FLOWRATE OF A #30 3TN NOZZLE AT 15 PSI, KNOWING THE FLOW @ 10 PSI IS 4.94 GPM $Q_2 = 4.94 (15/10)^{1/2}$ Q ₂ = 6.05 GPM

NOTE: THE INFORMATION PRINTED ON THIS PAGE IS SUPPLIED COURTESY OF NELSON IRRIGATION CORPORATION, AND HAS BEEN EXTRACTED FROM NELSON'S BROCHURE ENTITLED "CENTER PIVOT SPRINKLER DESIGN - TECHNICAL APPLICATION GUIDE." THIS BROCHURE IS AN EXCELLENT SOURCE MANUAL FOR YOUR SALES PEOPLE. PLEASE LET US KNOW IF YOU NEED ONE.
